The Canadian Pacific, as far as rumors go, is about to enter into competition with the Transcontinental roads of the United States, and it is expected that there will be a lively cutting of rates. George C. Perkins, who has been East trying to effect an arrangement with the Canadian Pacific, whereby the railroad shall make use of the steamship line he controls as an outlet to San Francisco, has evidently succeeded in his object, as the following letter to a gentleman in that city shows:

OFFICE OF THE VICE PRESIDENT,  
CANADIAN PACIFIC RAILWAY,  
MONTREAL, JBD 29 1886.

DEAR SIR:—I am much obliged to you for your favor of the 21st, and I will say, for your private information, that we have practically concluded arrangements for a steamship connection between Vancouver and San Francisco on such a basis as will enable us to work freely both ways. While we will probably open our line for through freight traffic early in May it is not likely that we will undertake competitive traffic before the end of June, as we wish to have everything in smooth running order before doing so. Yours truly,  
W. C. VAN HORNE,  
Vice President.

Judge Beardon, of San Francisco, has rendered an important and interesting decision in favor of the plaintiff in the case of Thomas Jennings vs. the Bank of California. The action was to recover 67,000 shares of the stock of the Bank of California and \$11,000 damages. The stock was assigned by A. M. Bowman, previous to his failure to the plaintiff, and the bank, which had the stock in its possession, refused delivery of it to plaintiff because Bowman owed the bank \$8,000.

## The Chinese Question in the East

The following correspondence will be found interesting and shows that the Knights of Labor in the East are anxious to aid those on the Pacific Coast in preventing Chinese immigration, and that the House Committee on Labor will aid in legislation to effect that end.

WASHINGTON, February 5, 1886.  
Hon. J. J. O'Neil, Chairman of Committee on Labor, House of Representatives.

SIR:—I take this opportunity to forward to you the accompanying copy of a circular issued by the Knights of Labor of the Pacific Coast, setting forth their position on the Chinese question. The circular reached me inclosed in a letter requesting that I do all in my power to awaken in the East a renewal and stronger interest in the question of Mongolian competition with white labor. I know of no more effective way of accomplishing this than by inviting the co-operation of the Chairman of the committee which has gratified all good men by the earnest and energetic manner with which it has inaugurated the work in the interest of labor. Monster petitions are being put in California for transmittal to the East, urging the absolute exclusion of the Chinese from our territory. If you can find time to give even briefly your views as to whether such absolute exclusion can best be obtained through further legislation, or by the negotiation of a treaty with China, it will afford me pleasure to present the same through the labor press to our friends on the Pacific Coast. With great respect, yours, very truly,  
D. L. DEAKERS.

HOUSE OF REPRESENTATIVES,  
U. S. OF A.,  
WASHINGTON, Feb. 6, 1886.

R. L. Deakers, Esq.  
DEAR SIR:—A visit to the Pacific Coast last summer but confirmed my previous impressions of the disastrous effects of Chinese labor when brought in competition with free American labor. Self-preservation would justify the absolute exclusion of this race, if the legislation heretofore devised to restrict the bringing here of Chinese coolies is systematically evaded. I presume the organized labor organizations which recently met at San Jose, Cal., will submit to Congress some feasible plan for the suppression of this evil, which, I need hardly say, when presented will find an humble advocate in myself. Yours truly,  
JOHN J. O'NEIL.

### A Woodland Tragedy

Everett L. Craft, a young man in the employ of Sullivan & Reeves, at Sacramento, but a resident of Woodland, was shot by ex-Senator Harlan Sunday. The tragedy occurred in the office of Byrne's Hotel, Woodland, Cal. Craft fell after Harlan's third shot. Harlan surrendered himself to the Sheriff. The trouble was caused by Craft circulating stories reflecting on the character of Harlan's daughter, with whom he has kept company for several years, and who was recently married to F. J. Sill, a young merchant of Woodland. Frank Barnes Harlan's brother-in-law, who stood with a pistol in his hand by Harlan's side while he did the shooting, has not yet been arrested. Harlan refuses to make a statement. Mrs. Sill is a great favorite and bears a spotless reputation. Craft's friends declare that they have proof of all the statements made by him. James Harlan, who did the shooting, has been a resident of Yolo county for twenty-five years, and represented Yolo and Solano counties as joint Senator in the State Legislature for two terms. Craft is said to have been quiet, well behaved and good natured.

The Coroner's jury in the case of ex-Senator Harlan, charged with killing E. L. Craft, returned a verdict Monday that Craft came to his death from gunshot wounds inflicted by J. H. Harlan. The defense, it is stated, will be based on justification of the act, and not on insanity.

### Fred Douglass' Resignation

A New York Tribune's Washington special says: The resignation of Fred Douglass has been in the hands of the President for several weeks. He was given to understand that his successor would be appointed on the expiration of his term. There are a number of applications for the office of Recorder of Deeds. The income of the Recorder has been grossly exaggerated. Colonel Lamont says the place is possibly worth \$1,500 a year. George W. Weston, the present Librarian of the Senate, is the most prominent candidate mentioned. He is a Democrat, and strongly recommended by the Senators belonging to both parties.

## The Administration and the Silver Men

WASHINGTON, Feb. 5.—The members of the Cabinet have been considering the nature of the reply to be made to the Bland resolution, adopted by the House last Wednesday, calling upon the Secretary of the Treasury for information relative to the reported agreement between the Treasury Department and the New York Clearing-House to preserve the gold standard, and requesting the Secretary to inform the House whether he had any such agreement, and if so, by what authority of law, what amount of the interest paying debt is subject to call, and if the same policy will be pursued in the payment of silver thereon and on other public dues in the future as in the past. The last clause of the resolution—that calling for information regarding the future policy of the Administration regarding silver—is the most calculated to embarrass the administration. At the Cabinet conference yesterday it was decided to answer this clause by referring to the views expressed by the President in his message and by Secretary Manning in his annual report, and saying that the Secretary had not changed his views regarding the duty of Congress in respect to this matter since these papers were submitted to Congress. The President, in his message recommending the suspension of the compulsory coinage of silver dollars said: "That disaster has not already overtaken us furnishes no proof that danger does not wait upon the continuation of the present system of silver coinage. We have been saved by the most careful management and unusual expedients, by a combination of fortunate conditions and by the confident expectation that the course of the Government in regard to silver coinage would be speedily changed by the action of Congress."

Secretary Manning, in his annual report, urging the suspension of silver coinage, said: "Equivalence in domestic trade is practicable, but the equivalence is now imperilled by continuing and increasing the number of silver dollars. This is more than the deliberate judgement of the Secretary of the Treasury. It is attested to him from the centres of trade in all parts of the country—as much from the West as the East. Not alone do our ablest statesmen and instructed economists and financiers advise the stopping of silver coinage now, but wherever our fellowcitizens are concentrated in cities and towns, the business classes engaged in the trade enterprises and manufactures of this country and still the larger masses of workingmen employed by them, urge the stopping of silver coinage now. It is these classes which are always first to perceive such points to industry and trade, and the consequences they entail."

In view of the vote in the House on the adoption of the Bland resolution (168 to 189) it would seem that either Secretary Manning must have been sadly misinformed regarding the wishes of the people of the South and West, or the representatives in Congress of those sections have utterly failed to appreciate the desires of their constituents.

### President Cleveland Proposes to Stand by Garlanu

The New York Commercial's Washington special says: The President has determined to stand by the Attorney-General in the telephone matter, and Garlanu's withdrawal from the Cabinet will now depend entirely upon his own wishes. The editor of a New York paper, which has been the constant advocate of the Administration, but has attacked this telephone scandal vigorously, called upon the President, and Cleveland argued at length with him in behalf of Garlanu. He is reported as saying that while not convinced by Cleveland's argument, his defense of the Attorney-General was the best that has yet been made.

The police authorities of San Francisco, at a cost of \$326 43, sent a cablegram to the Japanese authorities, requesting the arrest of Aug. Tai Duck, the murderer of Captain Wickersham and wife. The cablegram also contained a description of the alleged murderer. The Rio de Janeiro, on which Duck took passage, should have reached Yokohama yesterday if she arrived on time.

## NOTES FROM THE CAPITAL

### Stewart's Candidacy and the Chinese Question.

CORR. SILVER STATE.  
CARSON, Feb. 5, 1886.  
EDITOR SILVER STATE.—The political cauldron has commenced bubbling in this city. The "bosses" who run the political machine in this county, and endeavor to direct State conventions, are occasionally seen on the street corners discussing various propositions and principles, though the latter are a secondary consideration. The general topic of conversation at present is the UNITED STATES SENATORSHIP.

Hon. W. M. Stewart, known to old-timers as "Bulldozer" Stewart, is preparing to enter the lists, and is hopeful of winning the prize. Though he left the State many years ago, he is now arranging to acquire a residence in the sagebrush again, and as a preliminary to citizenship is having a house built in this city, which he may or may not occupy. It is stated here that he is backed by the Virginia and Truckee and Central Pacific Railroads, and the fact that the organs of the first named corporation here and of the second at Reno are advocating his candidacy indicate the correctness of the statement. Stewart in early days acquired an unenviable reputation and considerable of a fortune as a manipulator of juries, and in connection with one Jim Morgan succeeded, on various occasions, in the courts in which Judges Mott and Turner presided, in getting verdicts which public opinion unanimously condemned as being contrary to the law and the evidence. Common report has it that a jurymen, who is now a resident of Carson, received \$3,000 in Ormsby county bonds in one of these cases for holding out against honest men for a verdict.

### THE ANTI-CHINESE MOVEMENT

Has reached the Capital, and some two weeks ago the good people of the city formed an Anti-Chinese League, and declared that the Chinese must give way for white men and women. A committee was appointed at the meeting to visit those who employ or patronize coolies, and request them to pledge themselves to discharge the Chinamen and discontinue patronizing them. Many of the best citizens readily consented, but the most ardent and enthusiastic supporters of Stewart's candidacy refused to do so. Among these are H. M. Yerrington, who will doubtless, as a Canadian subject, claim British protection if interfered with, his partner, D. L. Bliss, Dr. Lee, G. C. Thaxter, ex-judge Wright, an employee of the V & F. S. G. Wright, Receiver of Public Money, W. T. Torreyson, the Learned Blacksmith, and his \$5,000 boy, the District Attorney, George F. Davis, merchant, Dean Hatch, County Clerk, and a few others of less note.

H. S. Mason, a prominent merchant of this city, has taken a very active part in the anti-Chinese movement, and is roundly denounced by the Chinese lovers, but a large majority of the people of Carson are enlisted for the war, and will stay until the yellow pest is exterminated.

A colored man of the name of Gibson, who was baggageman on the V & F R. R., made the remark: "that the Chinese must go." This reached the ears of Boss Yerrington, who discharged Gibson and put Ed Murphy, a son of Judge Murphy, of Esmeralda, who resides here, in his place. Boycotting has been commenced by the coolie work-shippers, but unless your correspondent mistakes the timor of the people of Carson, the movement now inaugurated will result as it has in Truckee and many other places—in supplanting Chinese with freemen.

### TRUTH TELLER

To be Decapitated.

Commissioner Sparks, of the General Land Office, is said to be much dis-pleased with the work of special agents in his bureau who are located in the various Territories, and whose duty it is to detect frauds upon the public land laws. He has determined to remove the special agents in Wyoming and Washington Territories, on the ground of incompetency. The agent in the latter Territory is John G. Thompson, a former leader of the Democracy in Ohio, and ex-Sergeant-at-Arms of the House of Representatives.

### Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21-awf-lyr

All persons who desire to become stockholders in the steam laundry are requested to meet at Judge Young's court-room on Thursday evening, February 11, at 7:30 o'clock.

Richard Jose leaves Reno Thursday evening for California. We very much regret losing such a promising young man as Dick, but wish him all the success possible in his new efforts.

The "Dude" Base Ball Club wish us to state for the benefit of the nine who so easily vanquished them last Sunday that although "disfigured" they are still in the ring and will meet them or any other nine in the diamond next Sunday. The game will be for blood.

Packard the coal burner, and a man known as "Long Jim," got into a difficulty over cards in the poker room of Charlie Chase's saloon, and Packard struck Jim over the head with the flat side of a hatchet and would have used the sharp edge if not caught by a bystander.

Carson Free Lance says State Senator Evan Williams says he wants it distinctly understood that he is not a candidate for the gubernatorial office never was, and never will be. He says that if a certificate of election to that office were made out and handed to him, he would not accept it. It would scarcely do, anyhow regarding the matter from party standpoint, for Mr. Williams to enter the field for this office during the coming campaign, as he is a hold over Senator, and if the Democrats should nominate Harry Day against Hub Parker once more, they might possibly ruse votes enough to overcome that six majority.

## MIDNIGHT FIRE

An alarm of fire sounded about 12 o'clock Monday night was caused by the burning of Mrs. Jacobs' dwelling on the corner of Fourth and Peavine streets. The lady was aroused from her slumber by a dense smoke filling the whole house. She awakened her 16-year-old son and with the assistance of neighbors saved nearly all her furniture. The fire seemed to originate in the kitchen or pantry, but just how is not known. The distance from any cistern or plug made it impossible to save the house. Insured for \$400.

## LAND PATENTS

During the past year or two a great number of patents for State Lands have been issued from State Surveyor General Preble's office, the people having plenty of money on hand paying us for this property and thus stopping the interest. Below will be found a partial list of prominent citizens who have emulated Sam Davis' example and have put a few of their spare dollars in sagebrush real estate. The figures represent the number of acres for which patents have been granted.

It makes one smile to think of some of the above mentioned individuals posing as land grabbers and coinappers, but it is gratifying to know that they think enough of the State to step into the market and buy up a portion of the unoccupied land. Most of them will go into the apple raising business.

## NEW STATE MAP

In the office of U. S. Surveyor General Downing at Reno a new map of the State is being perfected. The draughtsmen have been employed upon the work for some time, and when completed, the map will show all the county boundaries as they now exist. In some cases the determination of these lines is most difficult, as the statutes laying them down are very indistinct and indefinite. For instance, Lyon county, the star fish of the sagebrush State, is bounded by a most complex combination of hypothetical lines. Mr. J. W. Packer of the U. S. Surveyor General's office, was in Carson last week, and spent some time in the office of the Secretary of State gathering material for the new map.

## ORPHANS' HOME

At a meeting of the Commissioners for the Management of the State Orphan Home last Tuesday it was decided to erect an industrial school building with the \$5,000 bequeathed by the late William Shuman. The plans have not yet been agreed upon, and it is an open question whether the entire sum shall be expended in putting up the building and leaving the furnishing of the same to the next Legislature, or whether the amount of the bequest shall cover all expenses in providing this much needed adjunct to the Home. At any rate the building is to be constructed and it will be two stories high. The lower part will be devoted to machinery and appliances which may be used in giving the boys instructions in mechanical handicraft and the upper floor will be utilized as a sewing room and general work shop for the girls. It is hoped by this means to give the youthful wards such a start in life that when they are

called upon to leave the protective precincts of the home, they may be competent to take their places as useful members of society. In this endeavor the Commissioners deserve and have the hearty good will of every citizen of the State. The hours of employment will, of course, be few, and will be graded according to age and advancement of the public.

Roll of Honor for January—Ida Browning, Nancy Mays, Carrie Hamilton, Belle Laswell, Aggie Dimond, Don Juan, Tommie Horan, Julia Moran, Maudie Brambila, Katie Hamilton, Joseph Reily, Henry Wilkerson, Lottie Bowers, Frank Collins.

Mrs. M. E. Jones, Teacher.

## Agent Gibson's New Clerk

The salary of Agent Gibson, of the Pyramid Lake Reservation, says the Free Lance, is \$150 per month, or \$1,800 per year, he paying his table expenses and all other expenses. Since his appointment, W. Hy Doane has been acting as his clerk, receiving therefore one-half of said salary, or \$75 per month. About two years ago Mr. Gibson asked for a clerk supposing of course his present efficient clerk would receive the appointment. But, no, under a Democratic administration no Republican need apply. A few weeks ago Agent Gibson received notice from the Department of the Interior that a clerk had been appointed at an annual salary of \$900. He is a Democrat from Tennessee, and now daily at the reservation he is looked for to take the place of the present acting clerk, Mr. Doane, who expects to return to his home in Carson.

## Washington's Birthday

Walter Hastings has all arrangements perfected for the Go-as-you-Please masquerade at the Theater on the evening of February 22d. Four prizes will be awarded as follows: Best sustained lady character, best sustained gent character, most original character and best home made costume. No prize will be awarded to a person wearing an imported costume. Tickets are only one dollar each, and as this is strictly a home dance Walter should have a big crowd to repay him for the interest he has always taken in sustaining a band in Reno.

## New Dental Office

The suite of rooms lately vacated by Mrs. Lake, at the Lake House, have been secured by Drs. S. and E. L. Southworth, of Carson and Sacramento, respectively, for the practice of dentistry, one of whom will be in constant attendance. Both of them being graduates of the leading dental college of the country, and thoroughly capable dentists, they are entitled to a share of the patronage of the residents of Reno and vicinity. Dr. Southworth, of Carson, is in attendance this week.

## Requisition

Acting Governor C. E. Loughton has signed a requisition on the Governor of California for the arrest and return of Effie Butler and George Carns on the charge of grand larceny. The parties are charged with stealing a gold watch and chain, worth \$300, and diamond ornaments, worth \$395, from Nellie Folsom, of Reno, on the 7th of last August. Sheriff Emmitt, of Washoe county, has been appointed State agent to bring Butler and Carns back to Nevada and left for the Bay last night on the above mission.

## The University

Architect Curtis is running the work on the State University, and will have it completed before the end of this week. He had twelve men at work on Sunday in order to insure and accomplish the desired result. The University is very eligibly and conspicuously located, handsomely designed and executed, and not only an ornament to Reno, but a credit to the State.

It is reported that the Chief Executive of the State of Nevada will return before the end of the constitutional term of absence shall have expired.
